

Expressive Arts and Design at Ashfield Nursery

At Ashfield Nursery, creativity is woven into every aspect of learning. Through Expressive Arts and Design, children explore, imagine, and develop key skills that support their overall growth.

From their earliest days with us, children engage in songs, rhymes, and sensory play, laying the foundation for creative expression. As they progress, they discover a variety of tools and materials, learning to paint, draw, build, and create with growing confidence. Our environment is rich with opportunities for role-play, messy play, and hands-on exploration, allowing children to make sense of the world around them in a fun and meaningful way.

We understand that children communicate in different ways, and for many, creative play provides a vital bridge to language and understanding. Our skilled staff support and extend learning through engaging interactions, helping children to express themselves and develop their ideas.

At Ashfield, we nurture creativity, curiosity, and confidence—ensuring every child has the opportunity to thrive through imaginative play and artistic expression.
